

## **STAFF.**

In both primary and secondary, the teaching staffs are fourteen (14) in number respectively. From the 28 teaching staff the school managed to accommodate 8 teachers from each section. Some staff has been forced by circumstances to share accommodation and the others; the school has to rent rooms for them, 3 km a way from the school. This interferes with the teaching especially during rainy season.

Government Implementation of the Universal Secondary Education program from this year is also a threat to us because it absorbs many teachers from Private Schools, we inclusive. There is great fear that more might leave for government jobs as funding reduces every year. As per now the staff sealing is full with the immediate replacement of the gone staff members. However we anticipate a lot of fears if the rate of turnover of teaching staff continues to be high, because it affects the smooth learning of the children. Some Ugandan Nationals may have the opportunity to join the few Seed Government Schools of experimental programme but for non-nationals, the Sudanese children; it is not readily possible to join these schools.

We therefore still bank on your support for these children and looking forward to the reconstruction of Sudan especially in education sector to enable the continuity of their future education.

The supporting staff comprise of a driver, six (6) cooks, a secretary, a nurse, two securikor guards, two (2) matrons and the accountant.

There is still a lot to be done on the ground. Feeding of the children after the World food Program discontinued food supply is not easy. The school and the children tried to farm, but the yield is always determined by the climate.

On the other hand, our main supporter, the Friends of Sr. Emmanuelle is reducing the budget by 10% every year. Now with the reduction of the budget, the funds received from you is used for basic needs.

We are therefore requesting you, to continue to support us in the above mentioned since it is very difficult to get.

## **GRATITUDE.**

We appreciate and acknowledge the support that enabled the smooth operation of the school activities on the ground. We wish you God's blessings as you continue to love and support in charity the disadvantaged children.

Sr. Candia M. Grace
